1

b866y14

2

R

3

Range amount received from a main job or business 2014

5

	Value/Label	Cases	Percentage
4	0 No earning from main job or business	62	6.84
	1 1-149,999 SEK	270	29.77
	2 150,000-299,999 SEK	6	0.66
	3 300,000-449,999 SEK	557	61.41
	4 450,000 SEK or more	0	-
6	. not applicable	1	0.11
		907	100.00

- 
- 1 Variable name.
  - 2 Source of variable. R = Register data, Q = Questionnaire.
  - 3 Variable label.
  - 4 Numeric value and label for each variable value
  - 5 Description of the distribution of the variable.
  - 6 Missing values. Indicated with numeric or non-numeric value (.a, .b, .c and .).

Note: for years 2012 and 2013 two different types of information about types of income available: monthly income from w1 (from Questionnaire) and range of yearly income w2 (from Registers)

### **Range amount received from a main job or business 1990-2015 (b866y\*)**

In 1990, the variable sums Cash gross wages and salary and Income from firm (rörelse)/Income from agricultural property (cultivated).

From 1991 onwards, the variable sums Cash gross wages and salary and Income from active business activity (näringsaktivitet) if Income from active business activity is positive, otherwise the variable only accounts for Cash gross wages and salary.

For the variable Income from firm (rörelse)/Income from agricultural property (cultivated) in 1990, the part of Income from other property that in 1991-2002 is included in Income from active business activity is not included. This cannot be specified in the income statistics of 1990.

Up to and including 30 June 1992, sickness benefit (employer administration) is included in Summed income. Employer administration concerns primarily central government employees. Starting 1 January 1992, the sickness pay that the employer pays at shorter sickness absence (the first 14 days of a sickness period) is included in Summed income.

Apart from the central government employees, Summed income increases with the sickness pay amount as compared to the years 1990 and 1991. This increase concerns employees with an employment duration of at least one month, who in this way, as compared to self-employed persons on sick leave, contractors, and the short-term employed, get a larger summed income. For central government employees, as of 1 July 1992, the sickness compensation that is included in Summed income is limited to compensation for the first 14 days of the sickness period.

From 1 July 1997 to 31 March 1998, the sickness pay includes the first 28 days of a sickness period, which means that summed income to an even larger extent, during this period, includes also compensation in connection to sickness. From 1 April 1998 to 30 June 2003, the sickness pay period includes 14 days. From 1 July 2003 to 31 December 2004, the first 21 days of a sickness period are included. Starting 1 January 2005, the first 14 days of a sickness period are included.

**B866y12-15 Range amount received from main job or business 2012-2015**

Note: Only a range of annual income received from main job or business is provided in w2
